

**University Circle's
2023 Commuter Survey
Results Summary**

2023 Commuter Survey Overview

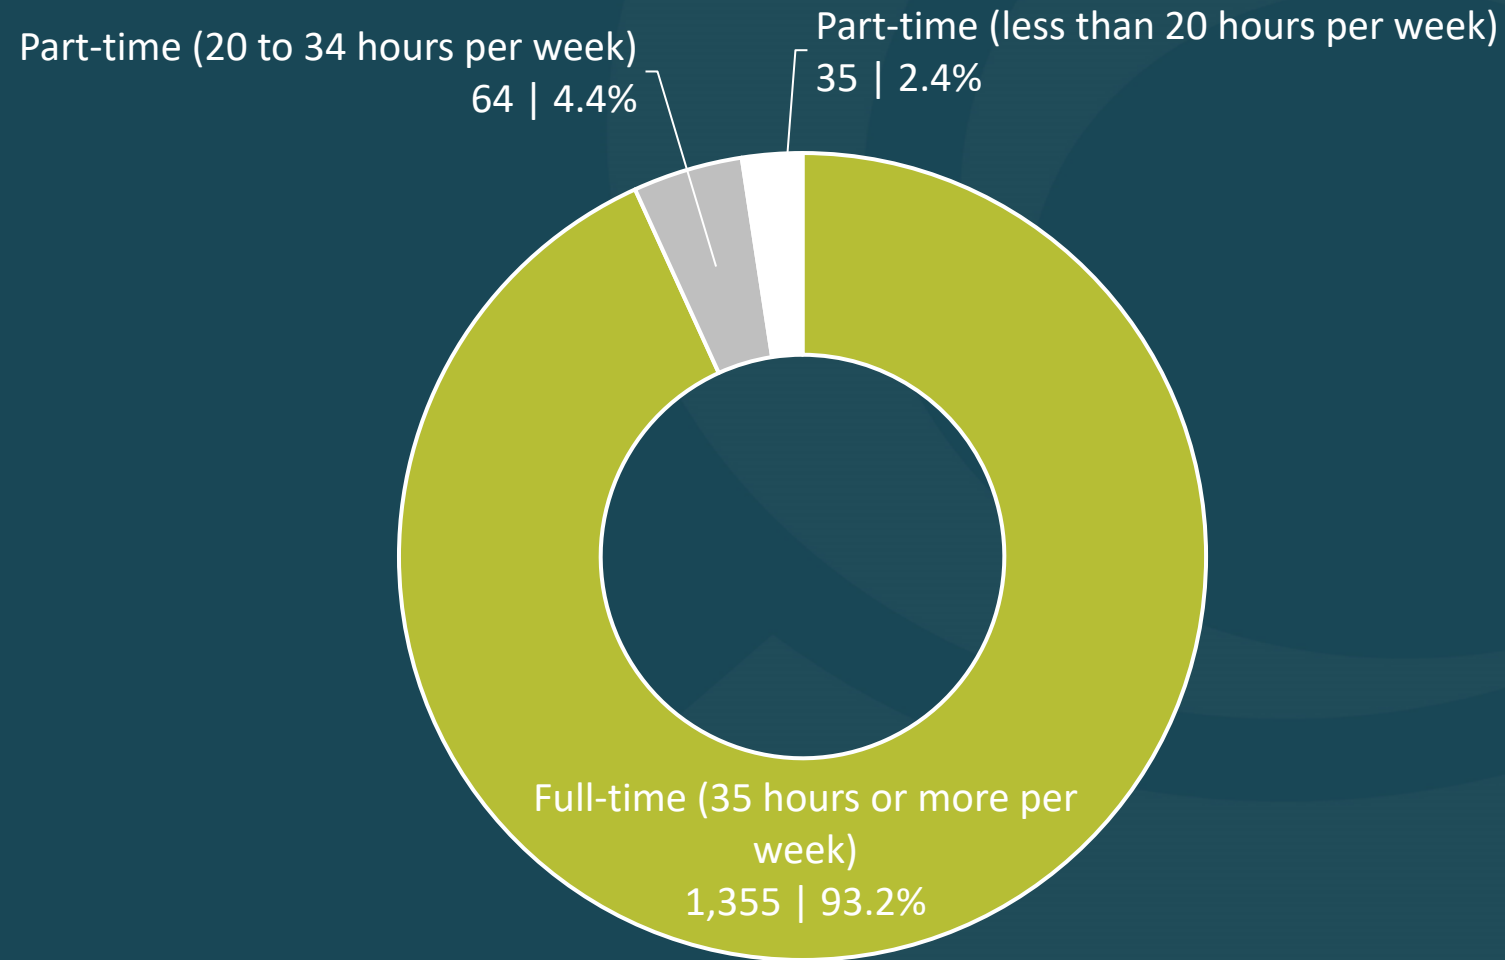

- 3-month survey (October – December, 2023)
- 26 survey questions asked
- 1,454 responses received
 - Including 243 paper survey responses
- Representing 29 workplaces
- Representing 124 unique home zip codes

What is your current place of employment?

N = 1,454

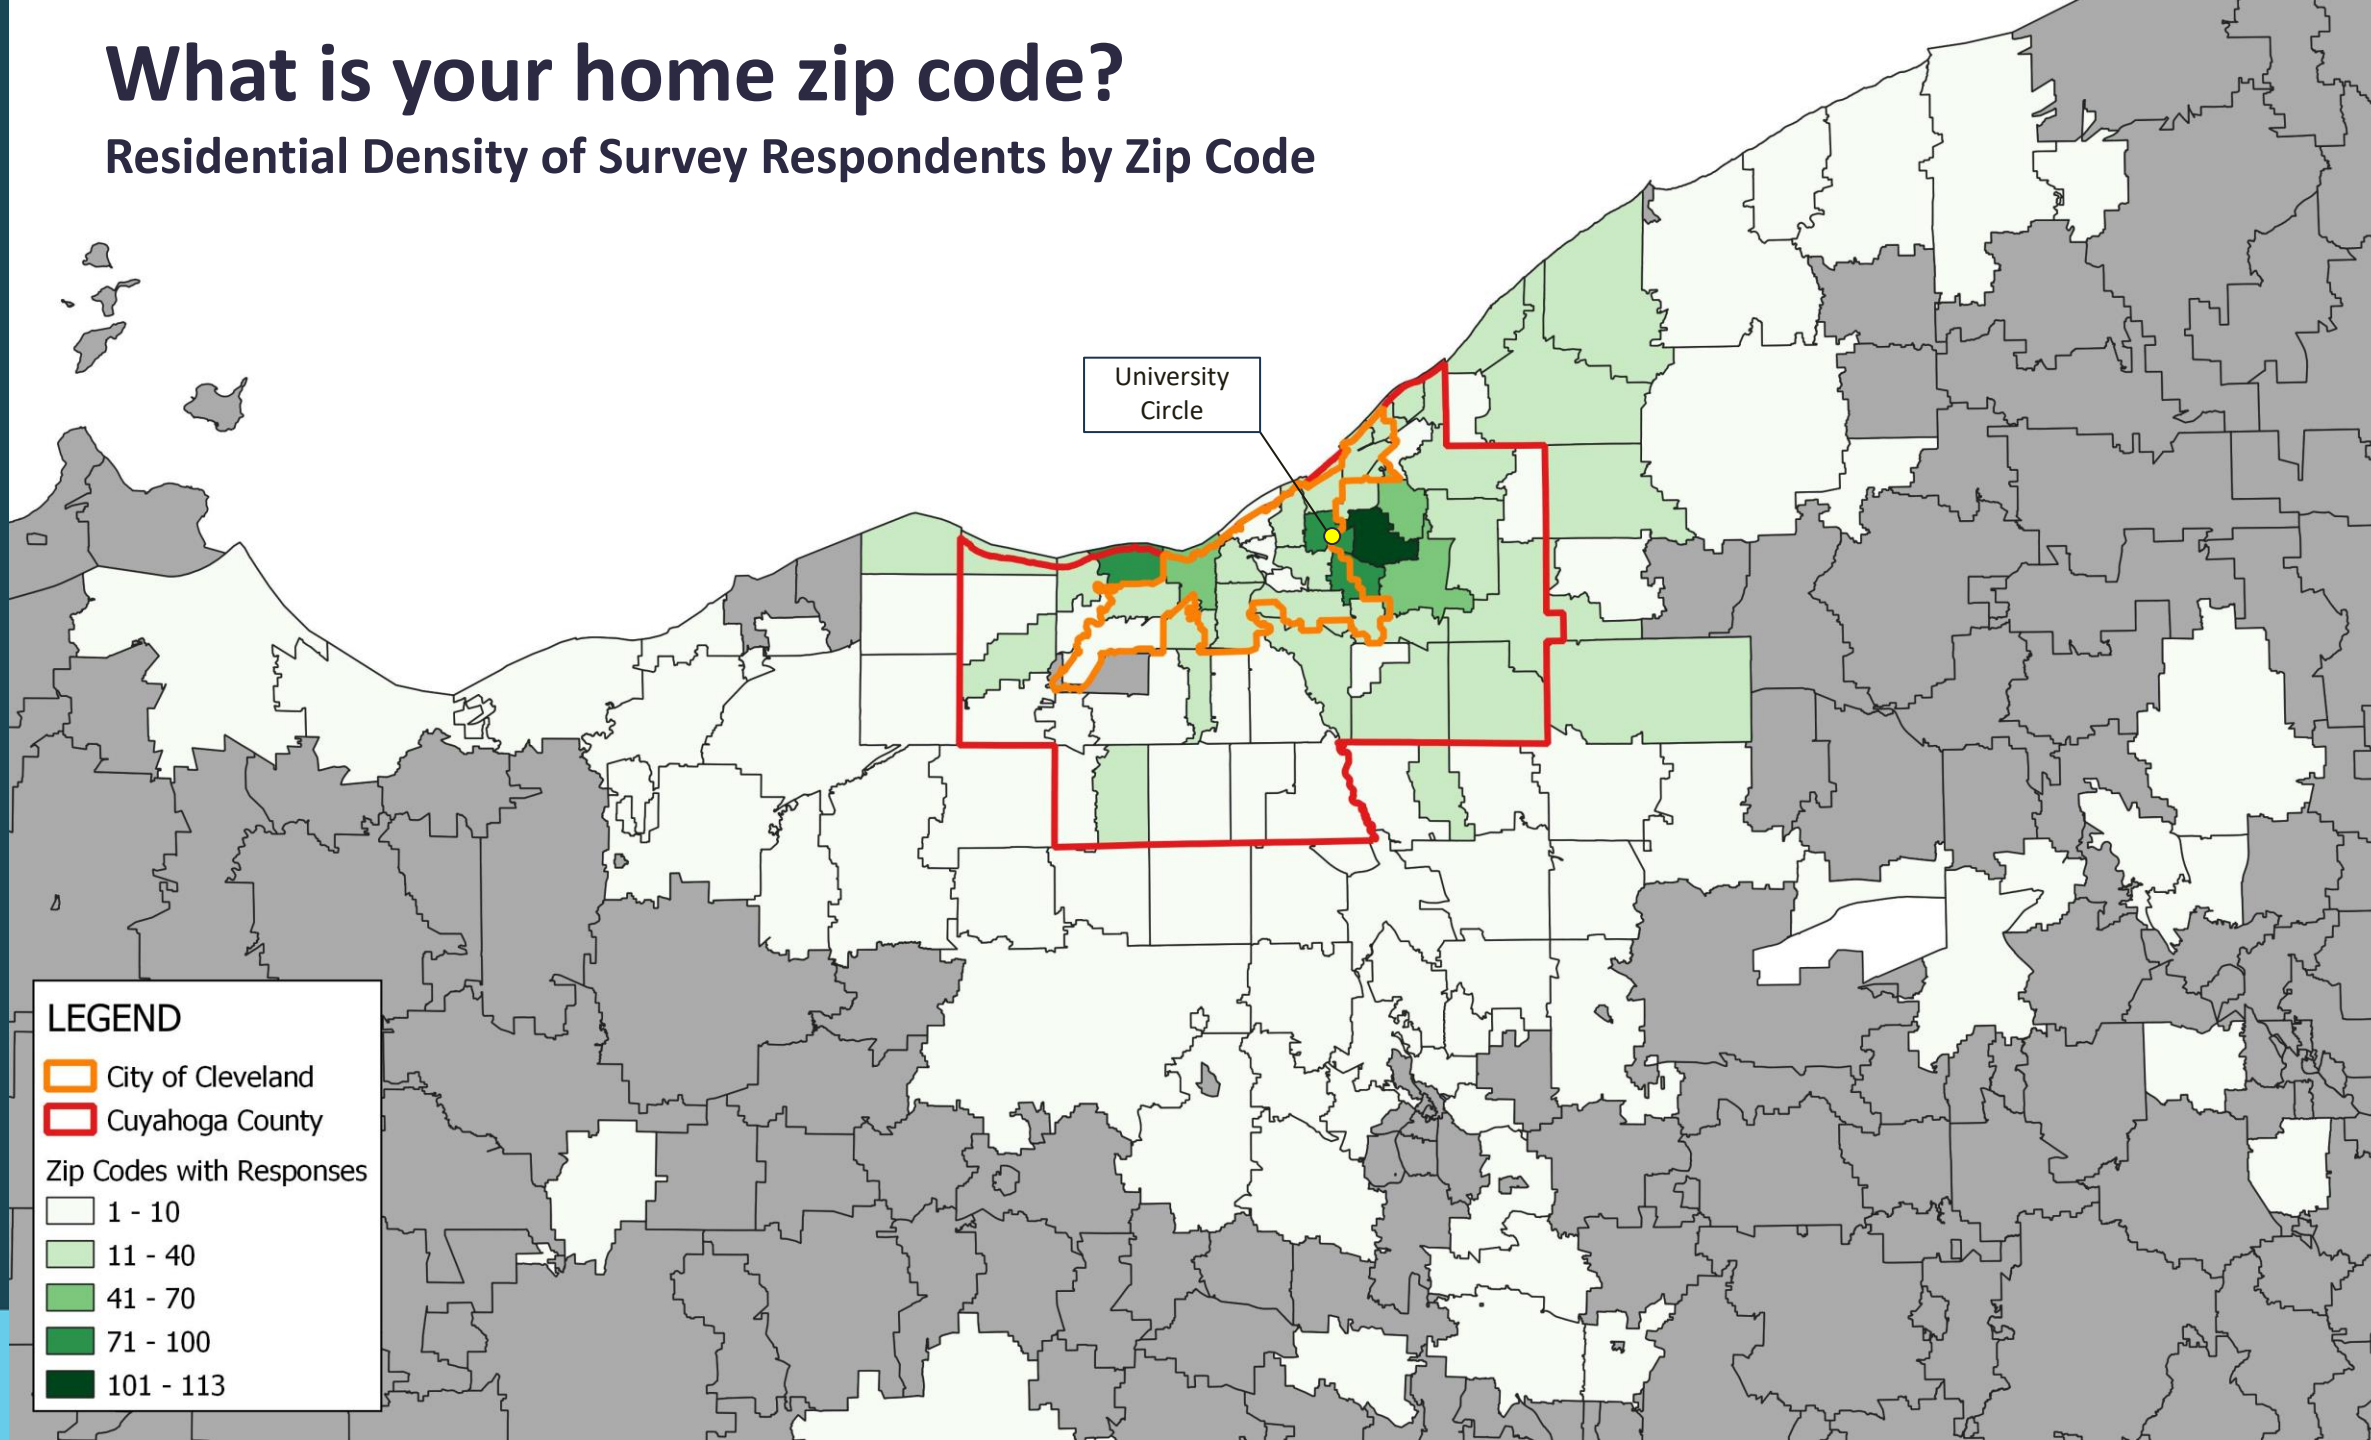

What is your employment status?

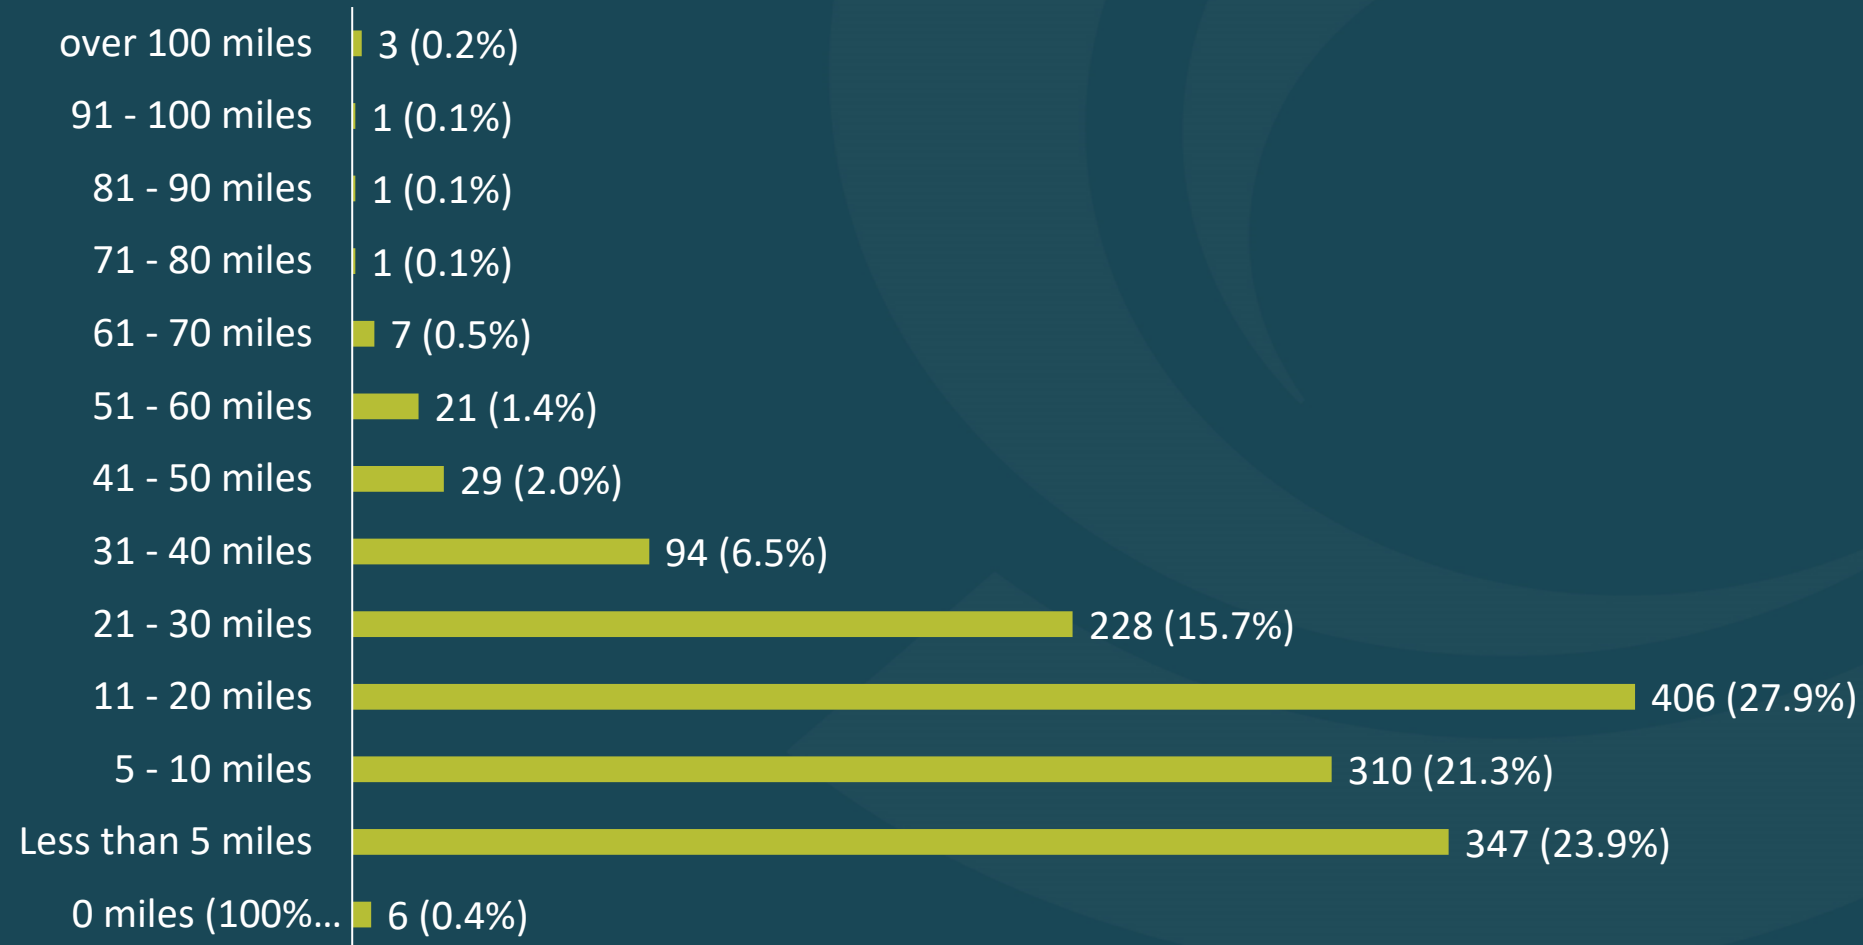

N = 1,454

What is your home zip code?

Residential Density of Survey Respondents by Zip Code

When you commute to work, how many miles are in your one-way trip to work?

N = 1,454

On a typical day, how many minutes does your commute (one-way) from home to work take?

N = 1,454

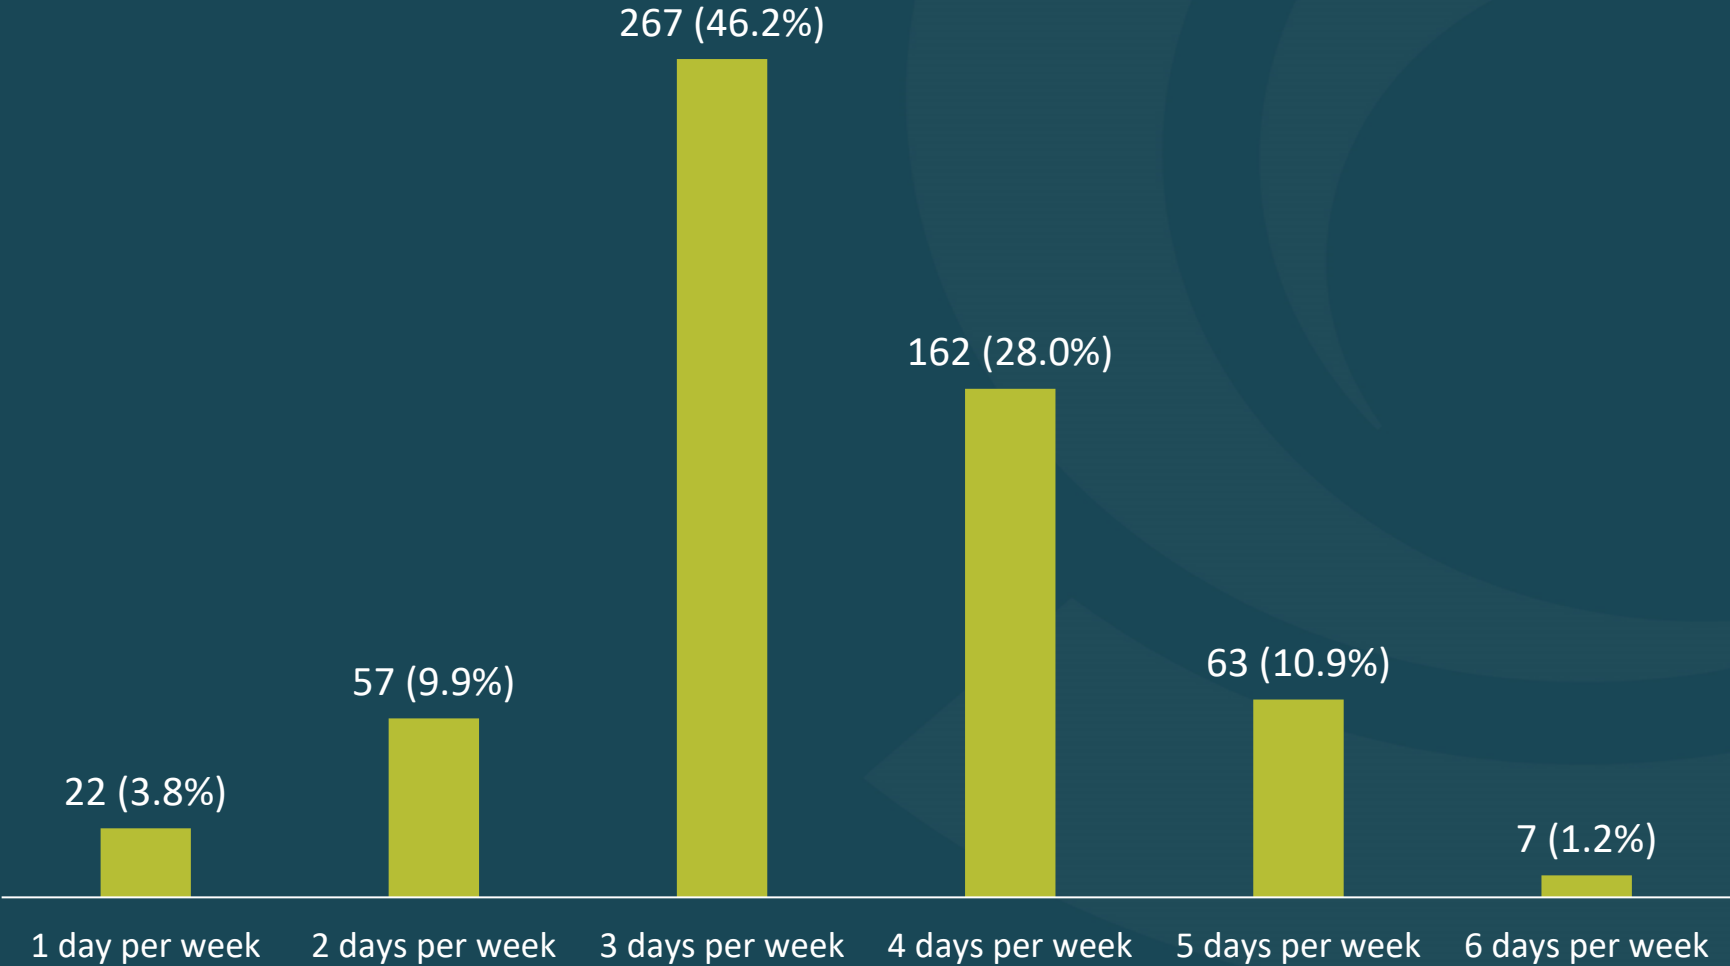

Many commuting patterns have changed due to the COVID-19 pandemic. Which best describes your current situation?

Note: "Other" responses were most commonly described as employees who do not have a singular physical workplace (i.e., their work involves traveling or they work at multiple sites/campuses)

N = 1,454

If you work a hybrid schedule, how many days per week do you typically work in the physical workplace?

N = 578

2023 Mode Split by Month – All Responses

	Jan	Feb	Mar	April	May	June	July	Aug	Sept	Oct	Nov	Dec

Do you have an electric vehicle?

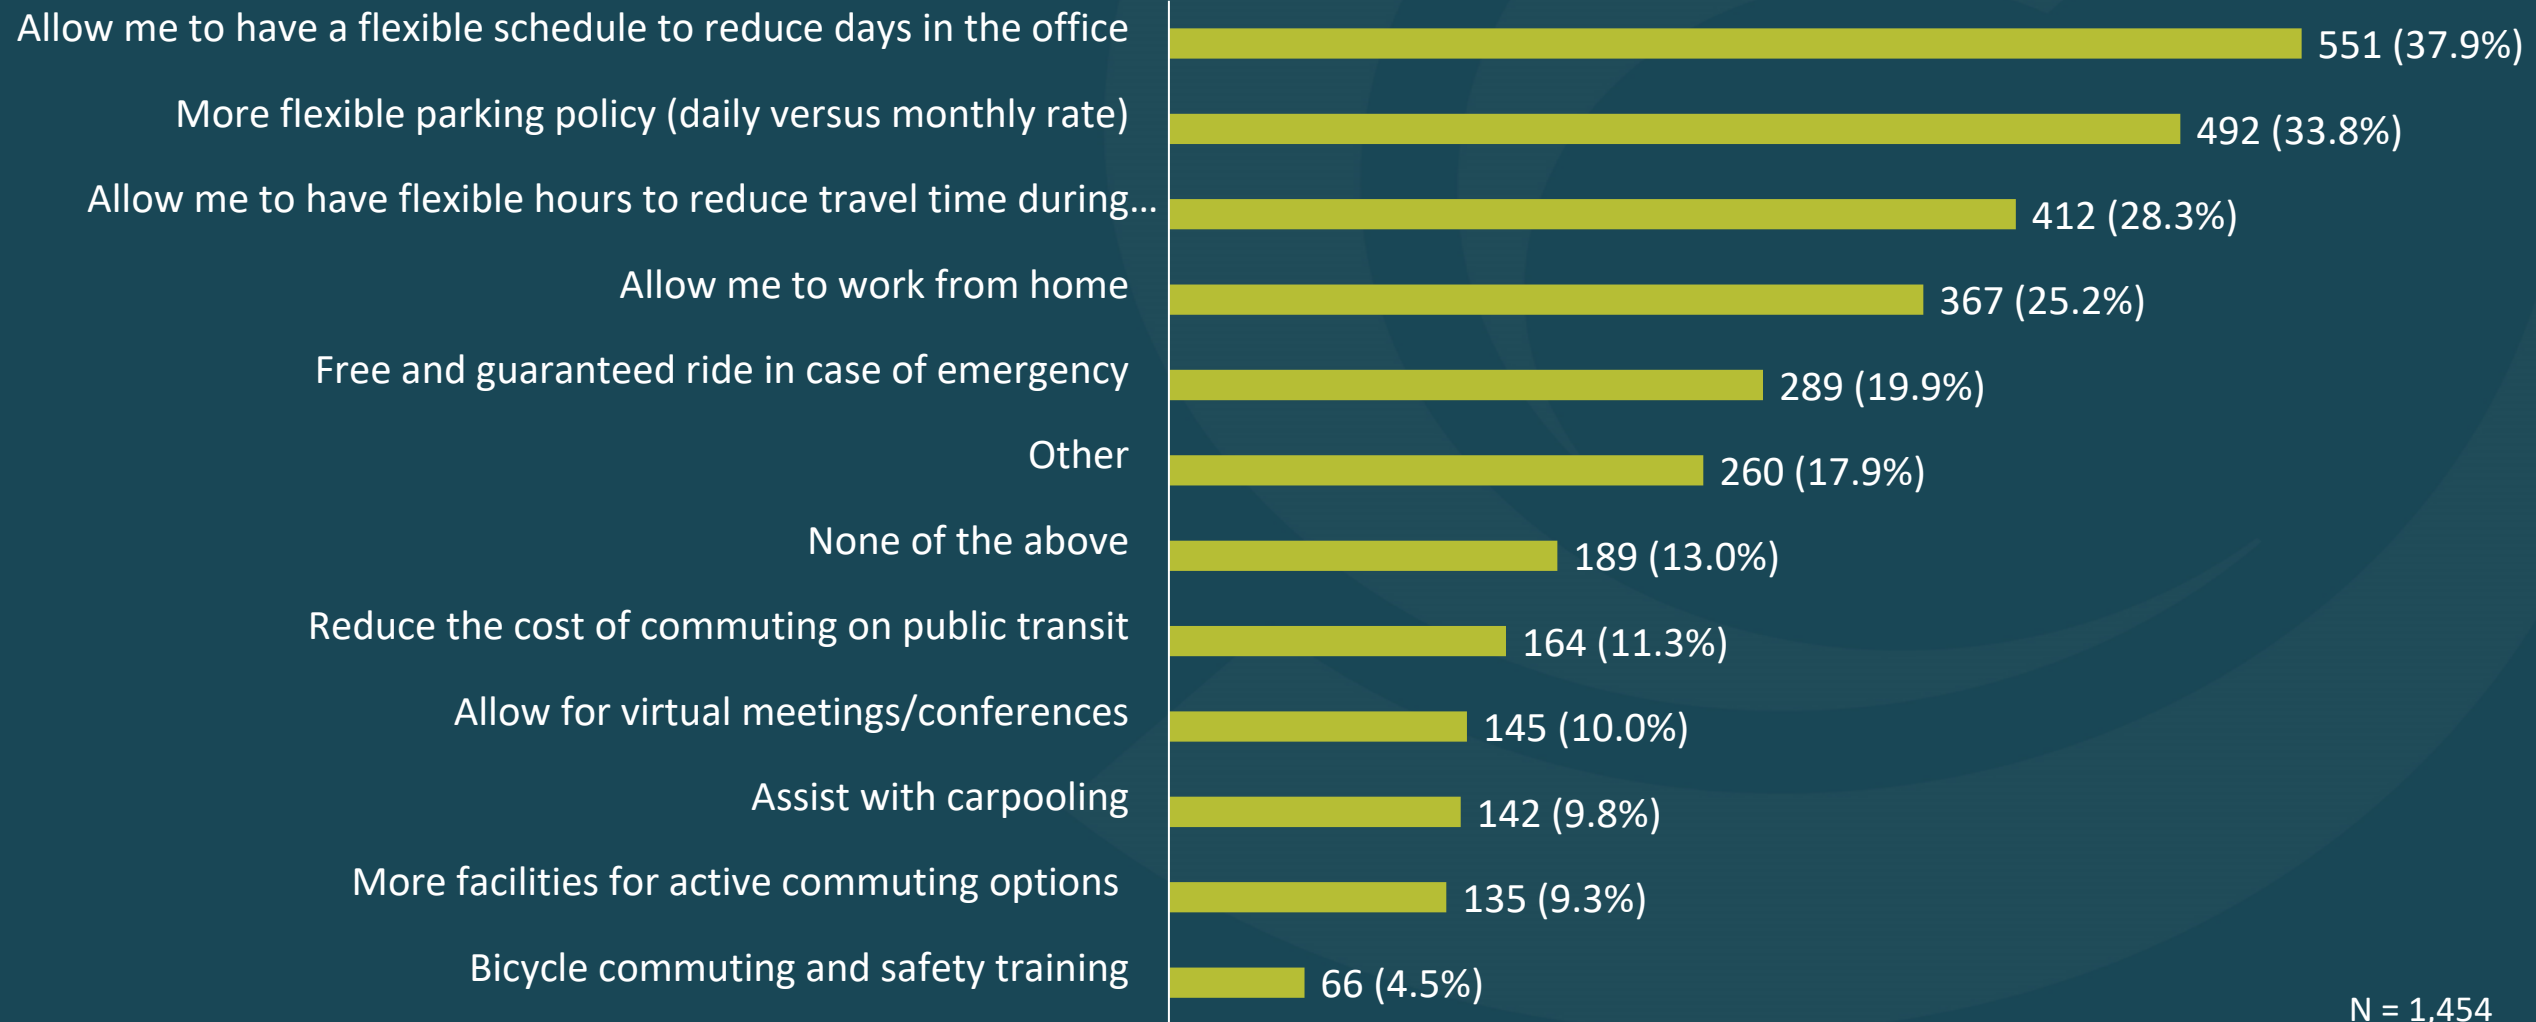

20% of EV owners charge their car at work

23% of EV owners don't know whether their employer offers charging stations

N = 1,211

*Note that this question was excluded from the paper survey

What could your employer do to improve your transportation situation?

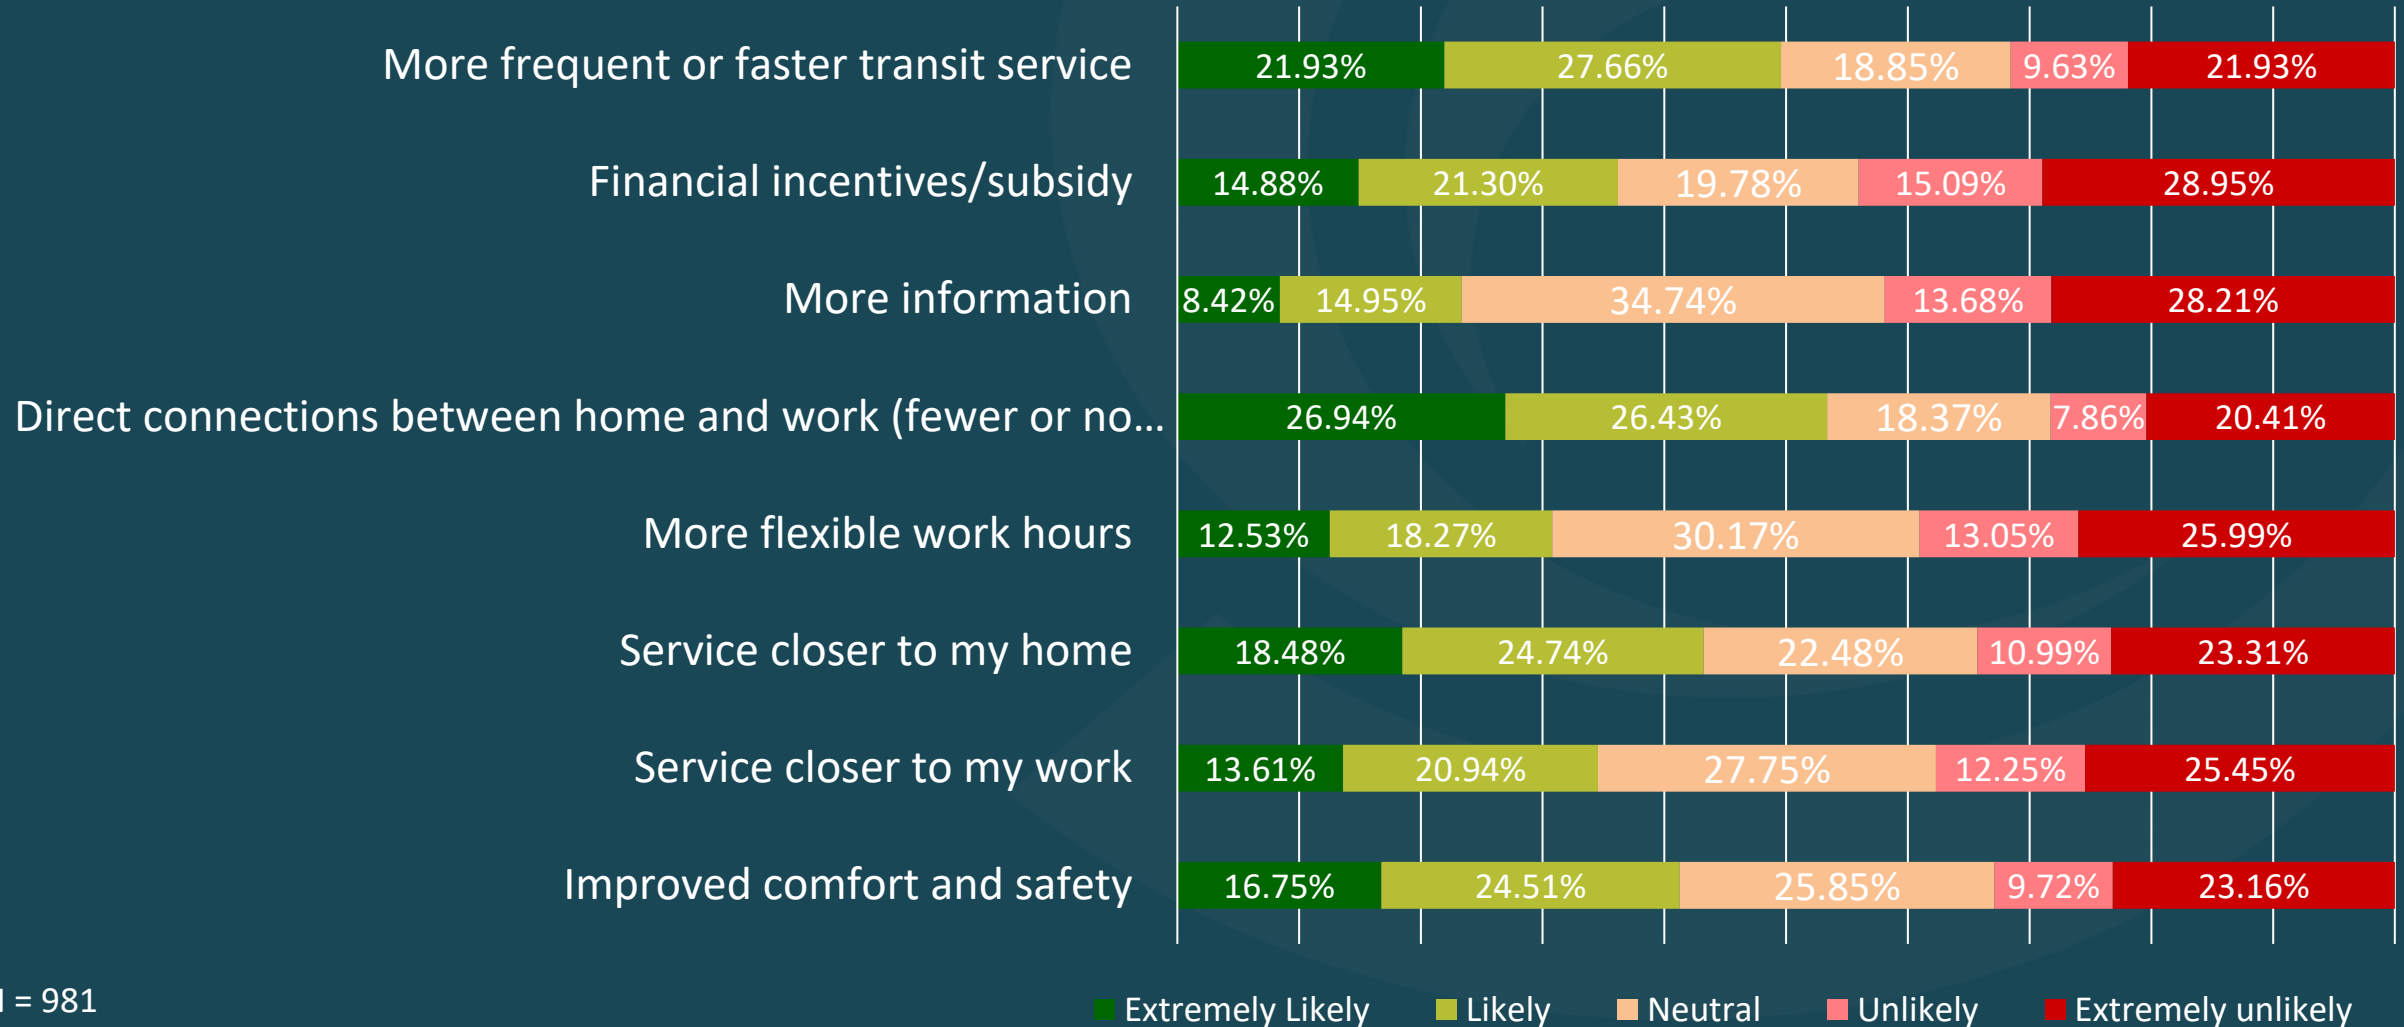

N = 1,454

What could your employer do to improve your transportation situation? “Other” Core Themes:

- Grace period for transit riders – many front-line employees noted that they are written up if the bus/train/shuttle is delayed
- Gas cards
- Free or subsidized parking
- More EV charging stations
- Better transit connections & more frequent service
- Better shuttle reliability & more frequent service

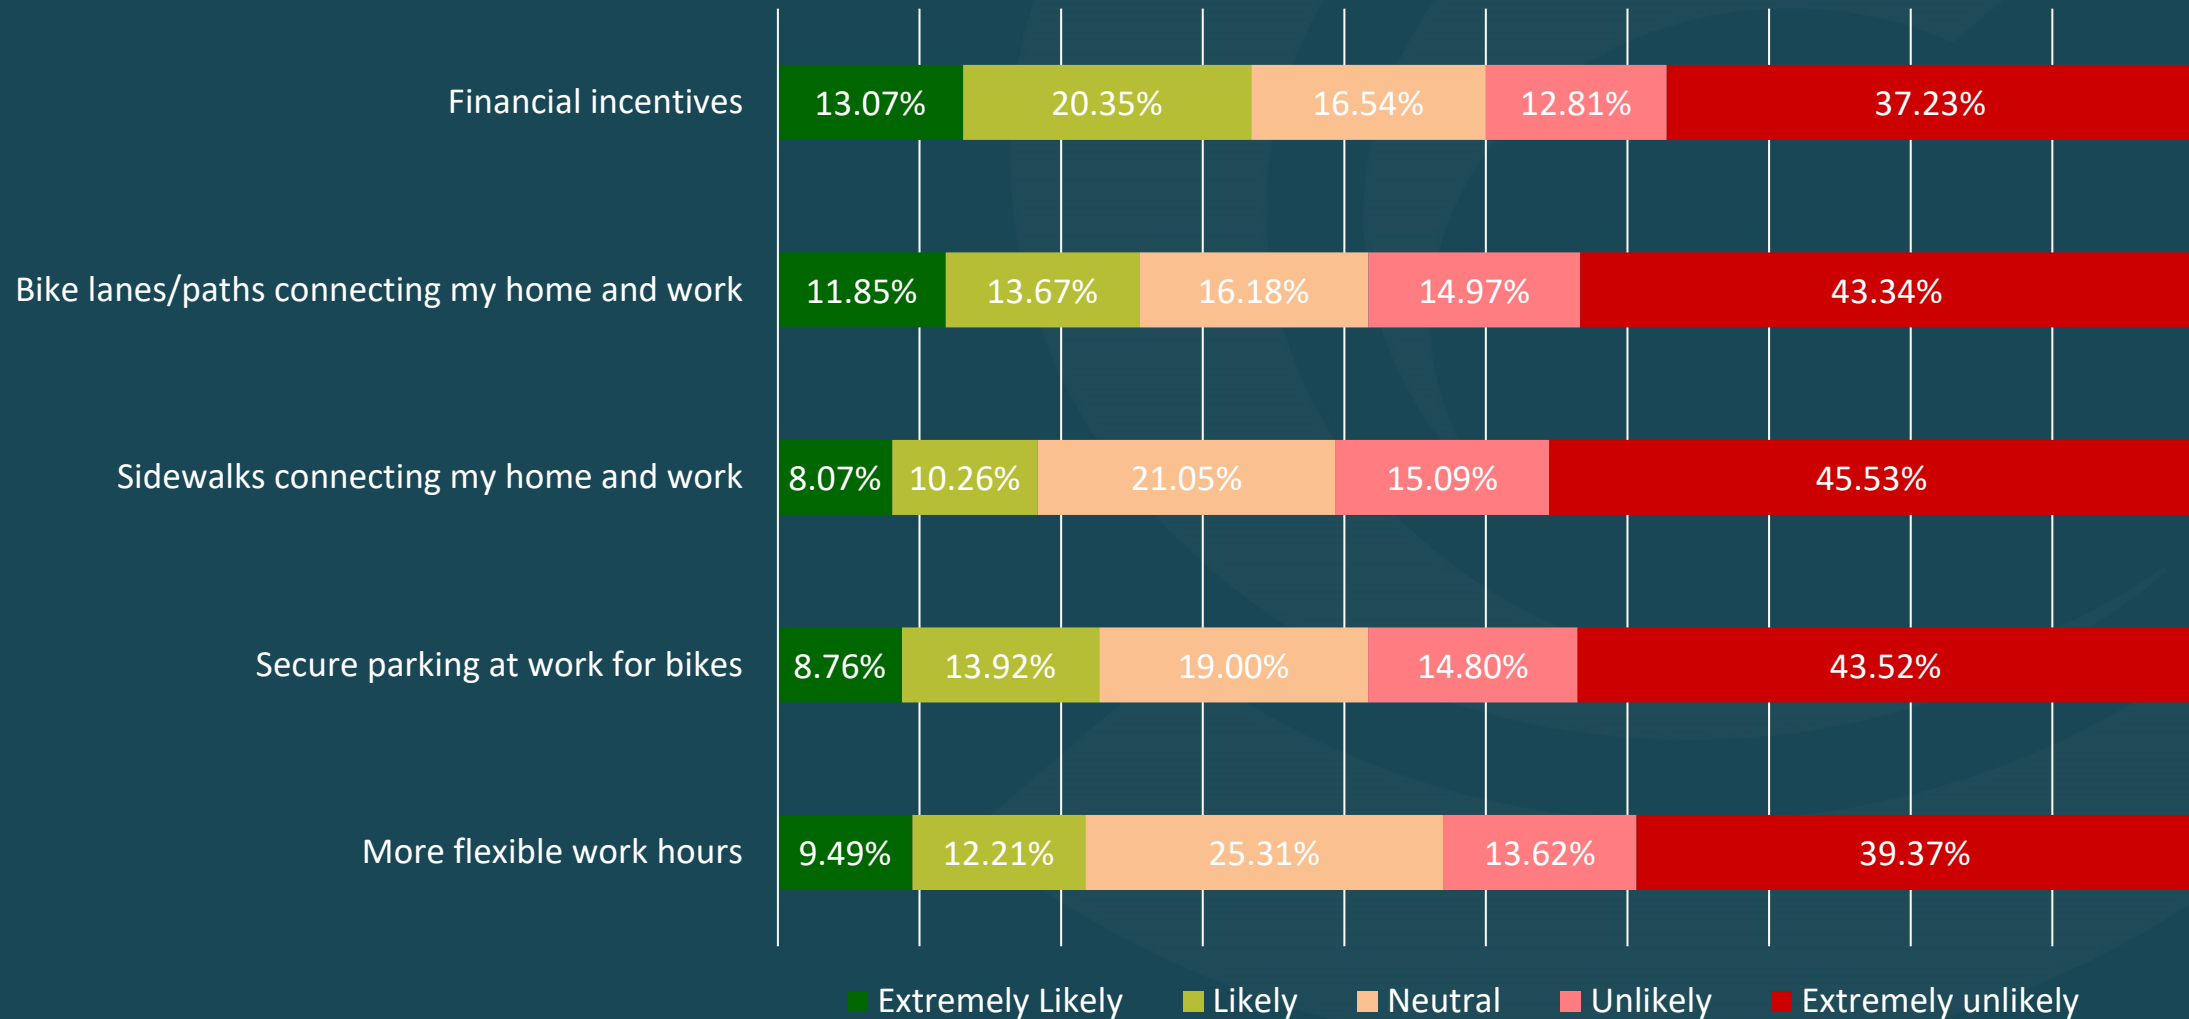

N = 258

How likely would each of the following influence your decision to ride (or continue riding) public transit to work in the future?

*Note that this question was excluded from the paper survey

How likely would each of the following influence your decision to walk, bike, or take shared mobility devices (or continue to use these modes) to work in the future?

N = 1,156

*Note that this question was excluded from the paper survey

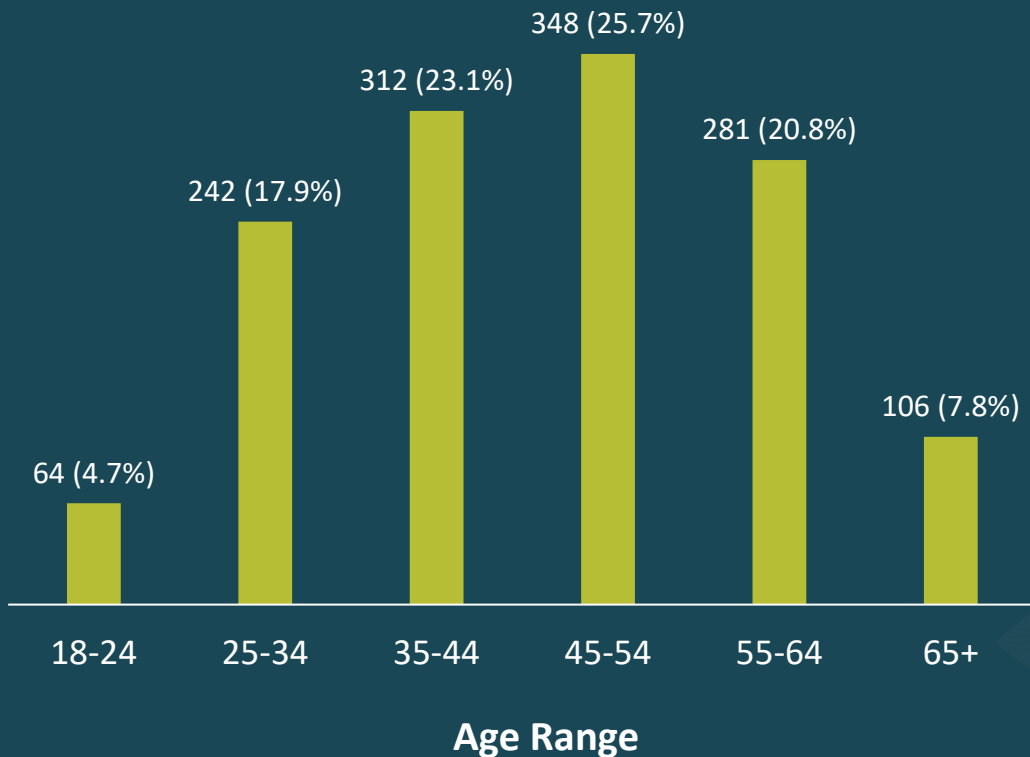

Please share any additional information or comments about your commute. Core Themes:

- There are many concerns regarding safety, cleanliness, and reliability for public transit.
- Respondents noted that alternative options are challenging if they need to drop off children at school/childcare, travel off-site during the work day, or frequently carry around supplies
- Many respondents desire better transit connections between University Circle and near east side communities.
- Many respondents desire more flexible work schedules (primarily to avoid rush hour times) and remote work opportunities.
- Respondents noted that parking is expensive, but many feel they do not have an alternative based on where they live (or alternatives like transit and biking would take too long).
- There are many requests for infrastructure safety improvements.

N = 328

Optional Demographic Questions

Which of the following best describes your age?

Which of the following best describes you?

N = 1,353

N = 1,340

*Note demographic questions were optional and not answered by all respondents

Optional Demographic Questions

Which of the following best describes your total annual household income?

N = 1,275

*Note demographic questions were optional and not answered by all respondents
